Professional Development & Services

Go Beyond the Basics

with VocaLinks Advanced Dragon® NaturallySpeaking end user training solutions with one of our Dragon® Certified Instructors.

Whether you are looking for the basics of using Dragon® NaturallySpeaking with Microsoft Office or want to learn how to create macros for tasks or record management systems, VocaLinks will work with you to build the training solution you are looking for.

VocaLinks Dragon® NaturallySpeaking training solutions include half or full day on-site instruction or one-on-one WebEx training sessions, purchased in hourly blocks to fit your schedule.

See our ad on **page 21** in the *Ontario Association of Chiefs of Police 2013/14 Contact Guide*.

Current Industry Trends

Interactive Whiteboards for Training, Briefings and Meeting Management

ARE YOU MAKING THE MOST OF YOUR TECHNOLOGY INVESTMENT?

Today's organizations spend thousands of dollars on technology yet overlook the importance of expert training and consultation services. As Canada's first SMART™ Certified Training Centre VocaLinks offers numerous training programs to support the integration of SMART™ Technologies for team meetings and briefings, interactive emergency response management and collaborative training opportunities.

VocaLinks training solutions will help you fully realize the potential of your interactive technologies by enabling your teams to effectively communicate information visually to others; save time in meetings, information preparation and follow-up; facilitate interactive and simulation-based training; improve briefing, planning, collaborating and strategizing by instantly capturing notes and information during meeting, training and other events.

SHOWCASE

BrowseAloud Plus adds high quality speech and reading support tools to online content

Extend the reach of your website to assist those with dyslexia, literacy difficulties, mild impairments and where English is a second language when browsing the web.

Whether you are using a Smartphone, Tablet, PC or Mac, **BrowseAloud** will provide the reading support many of your website visitors require. **BrowseAloud Plus** improves access to information for 27% of the population who require reading support.

BrowseAloud Plus features and options are accessed from an easy to use, floating toolbar. They include:

- Text to Speech
- Dual Colour Highlighting
- Reading Controls (Pause & Stop)
- Text to MP3
- Text Magnification
- Screen Masking
- Translation (current support for languages)
- Page Simplification
